公司简介 | 股票代码 601609

宁波金田铜业（集团）股份有限公司  
NINGBO JINTIAN COPPER(GROUP) CO.,LTD.

1986  
始建于

94  
中国制造业第94位

1400+亿  
2023年销售额

191万吨  
年产量

8000+  
企业员工

8大  
生产基地

800+  
科研人员

300+  
专利认证

公司创建于1986年，专注铜加工产业38年，是全球领先的铜合金及先进材料制造企业。主要产品有铜管、棒、线、板、带、排、电磁线、阀门、磁性材料及黄铜、青铜、紫铜、白铜等高端合金。致力于为新能源汽车、风力发电、光伏能源、电力电气、轨道交通、消费电子等产业发展提供全球一流的产品和服务。

公司立足宁波，放眼世界，在全球有八大生产基地，25家分子公司，8000余名员工。在美国、德国、泰国、日本、韩国等地设立分支机构，业务遍及100多个国家和地区，是众多世界知名企业的长期合作伙伴。

2023年，铜加工产销量达191万吨，营收总额1400+亿元，位列中国制造业500强第94位。

Jintian founded in 1986 and focus on copper processing industry for 38 years, which is a global leader in the manufacturing of copper alloys and advanced materials. Our main products include copper tube, rod, wire, plate, strip, busbar, electromagnetic wire, valve, magnetic materials and highend alloys such as brass, bronze, copper and nickel silver. We are committed to providing global first-class products and services for the development of new energy vehicles, wind power generation, photovoltaic energy, electric power, rail transit, consumer electronics and other industries.

Jintian based in Ningbo, has eight production bases, 25 subsidiaries and more than 8,000 employees in the world. We have set up subsidiaries in USA, Germany, Thailand, Japan, Korea, etc. Our business covers more than 100 countries and regions, and we are the long-term partner of many world famous enterprises.

In 2023, copper processing sales reached 1.91 million tons, the total revenue is reaching RMB 1400+ billion, and ranked 94 in Chinese top 500 manufacturing industries.

金田高精度铜带事业部成立于1993年  
系宁波金田铜业（集团）股份有限公司铜带材生产经营主体  
拥有国际一流的高精度铜带生产车间和智能化生产装备

Jintian Copper Strip Division, established in 1993, is the operation unit of Ningbo Jintian Copper (Group) Co., Ltd. that produces copper strips. Jintian Copper Strip has first-class high-precision copper strip production workshops and intelligent production equipment.

金田铜带专注于各种高精度铜带材的研发与生产，位列中国铜带材企业前列。金田铜带产品高精度锡磷青铜带、紫铜带、黄铜带和锌白铜带，符合欧盟 ROHS 指令要求，主要应用于电子、电气、通讯、网络、机械五金、建筑和家电等行业，远销韩国、日本、香港、欧美以及东南亚等国家和地区。引进德国、日本、美国等国家先进的制造设备和检测仪器，建成了多条现代化水平连铸和半连铸生产线，全面通过

Jintian Copper Strip focuses on the development and production of various high-precision copper strips, ranking in the forefront of China's copper strip enterprises. Jintian

ISO 9001:2015 质量管理体系、ISO 14001:2015 环境管理体系及 ISO 45001:2018 职业健康安全管理体系认证。

30 多年的发展与沉淀，金田铜带已成为国内先进的铜带材深精加工制造基地，随着 650 项目的投产，我们将重点布局 5G、新能源汽车、通讯、消费电子、高端医疗设备等应用领域，为客户提供性能更稳定的高强、高导精密铜合金带材。

Copper Strip products high-precision tin-phosphorus bronze strip, copper strip, brass strip and zinc white copper strip, in line with the EU ROHS directive require-

ments, mainly used in electronics, electrical, communication, network, mechanical hardware, construction and home appliances and other industries, exported to South Korea, Japan, Hong Kong, Europe and America and Southeast Asia and other countries and regions. With the introduction of advanced manufacturing equipment and testing instruments from Germany, Japan, the United States and other countries, a number of modern level continuous casting and semi-continuous casting production lines have been built, and they have passed ISO 9001:2015 quality management system, ISO 14001:2015 environmental man-

agement system and ISO 45001:2018 occupational health and safety management system certifications.

After more than 30 years of development and precipitation, Jintian copper strip has become an advanced deep finishing manufacturing base of copper strip in China. With the production of 650 project, we will focus on the deployment of 5G, new energy vehicles, communications, consumer electronics, high-end medical equipment and other application fields, to provide customers with more stable performance of high-strength, high-conductivity precision copper alloy strip.

# PRODUCTION EQUIPMENT

## 生产设备

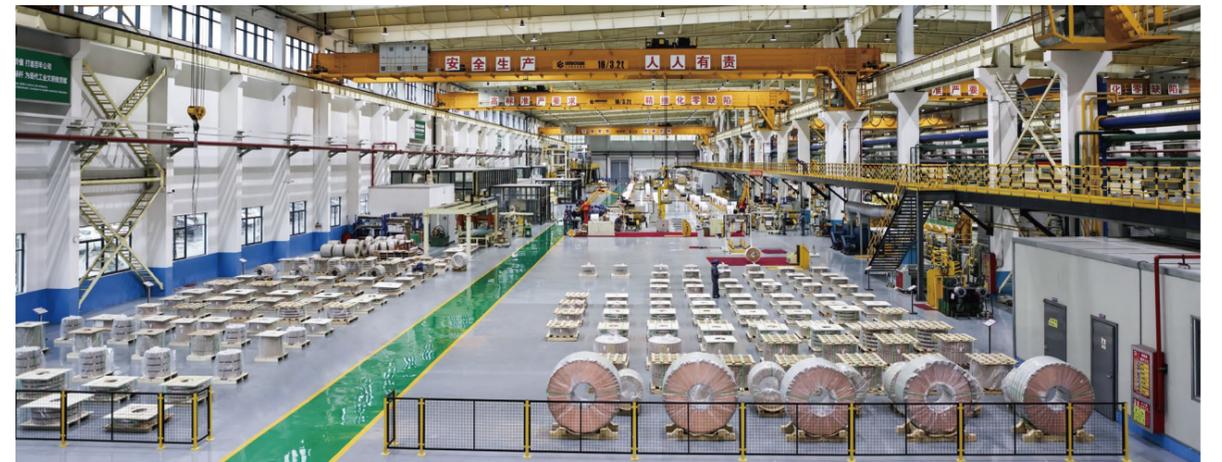

金田铜带拥有高精度、高效率的现代化进口专业生产设备，  
从国外引进了完善的生产体系，  
生产制造能力处于世界同行领先水平

走精益生产之路 尽全力消除浪费  
Process efficiently and precisely to eliminate waste

Jintian Copper Strip branch have imported high-precision and highly effective professional and modern production equipment with a complete production system from abroad. The production and manufacturing capabilities are at the leading level among peers in the world

# TECHNOLOGY

## R&D

## 技术研发

- 中国有色金属工业科技进步一等奖2项  
2 First-class Awards for China Nonferrous Metal Industry Science & Technology Progress
- 发明专利226项  
226 Invention Patents
- 承担国家科技支撑计划项目、国家重点研发计划项目和国家火炬计划项目24项  
Undertaken 24 of the National Science and Technology Plan Program, National Key R&D Program and China Torch Program
- 主持（参与）国家、行业标准制修订47项  
Participated in 47 Projects of National & Industry Standards Revision
- 获得省、市和行业科技进步奖30项  
Won 30 Provincial, Municipal and Industrial Science and Technology Progress Awards

以科技创新为主线，公司先后设立了“国家级企业技术中心”、“国家级博士后科研工作站”、“企业院士工作站”及国家实验室认可检测中心；以“全球科技人才为我所用”的理念，聘用德国、日本、韩国等国际高端技术人才和持续深化与中南大学、大连理工大学、中科院宁波材料所、浙江大学等国内著名科研机构的合作；坚持“创新产品、精准开发”的道路，导入并持续优化 IPD(集成产品开发)流程，建立了以市场为导向、产学研用紧密融合的企业技术创新体系。

With scientific and technological innovation as the main line, Jintian has set up "National Enterprise Technology Center", "National Postdoctoral Research Station", "Enterprise Academician Workstation" and National Laboratory accredited testing center. With the concept of "global scientific and technological talents contribute to our company", we employ international high-end technical talents from Germany, Japan and Korea, and continue to deepen cooperation with famous domestic scientific research institutions such as CSU, DUT, ZJU and Ningbo Material Institute of CAS. We insist on the road of "innovative products and precisedevelopment", introduce and continuously optimize the IPD (Integrated Product Development) process, and established a market-oriented enterprise technology innovation system with close integration of production, academia, research and application.

- TQM全面质量管理  
TQM Total Quality Management

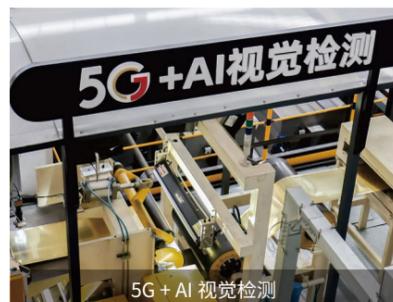

围绕“精益到底，智能为先”的生产理念，全面推行精细化管理，引进多名世界 500 强企业资深外籍专家，借力国内一流咨询机构，通过推行精益六西格玛、QC 活动、全员提案改善等，持续优化工业布局、促进产销协同、提升设备效能、改善员工作业，形成了具有金田特色的精益创新体系，使公司在产品质量、生产成本、劳动效率、现场管理等方面确立了行业领先优势。

Jintian Copper relies on the production concept of "lean to the end, intelligence first" and comprehensive implementation of lean management. With the help of several senior foreign experts from Fortune 500 companies and the use of domestic first-class consulting institutions, as well as through the implementation of lean six sigma, QC activities and employee proposals, Jintian Copper continues to optimize its industrial layout, promote the coordination of production and sales, improve the efficiency of equipment and improve the work of employees. This forms a lean innovation system with characteristics unique to Jintian. These efforts have enabled the company to establish industry-leading advantages in product quality, production costs, labor efficiency and on-site management.

公司坚持将智能化作为企业转型的重要抓手，成立智能制造研究院，先后与 BCG、IBM、HP、SAP、Honeywell 等国际一流咨询与服务公司合作，以提升企业核心竞争力为目标，依托工业设计理念，以精益体系为基础，深度运用自动化、信息化、数字化、智能化等技术，实现数据驱动的行业智能制造新模式。

Jintian Copper insists on taking intelligence as an important grasp of corporate transformation, establishes the Intelligent Manufacturing Research Institute, and cooperates with BCG, IBM, HP, SAP, Honeywell and other international first-class consulting and service companies. With the goal of improving the core competitiveness of corporates, relying on the concept of industrial design, lean system as the basis, in-depth use of automation, information technology, digitalization, intelligence and other technologies to achieve a new mode of data-driven industry intelligent manufacturing.
